- 1) Tree Planting. There are some funding streams available (Woodland Trust/ Lottery funding etc...) – but applications have closed for this year. Discussion around planting a greater number of deciduous trees in the village.

There are issues (e.g. land ownership/ permissions) but this would be a Padfield reaction to current issues around the climate. A first step could be asking villagers to see where there are areas that would be appropriate. Brian Skelhon has kindly offered to act as a conduit.

JB discussed a couple of ideas for the recreation ground – and planting will take place in March for plum and other trees.

- 2) Chapel needs the annual donation – this has been £150 previously.
- 3) 60 Club – lottery needs paying please
